MESSAGE FROM OUR FOUNDER

Dr. Mohan Lal Grero

“Knowing is not enough; we must apply. Willing is not enough; we must do.”

-Johann Wolfgang von Goethe

Your immediate environment affects you in more ways than one. Especially the people you spend time with daily play a big part in it, so instead of choosing average people who aren't ambitious or goal setters, it's much better to surround yourself with the ones who make things happen, thinking big and aiming higher than the rest. That will help you get motivated to do the same. It's worth making friends with people who can inspire you. Find the most successful individuals in your surroundings, and be around them as much as possible.

If you haven't achieved any of your big goals in life up to this point, maybe some of these tips will help you to be strong and courageous.

Innovation is important for personal development. You simply cannot do the same old things you've always been doing and expect different results.

Motivation is powerful. It always comes from the inside and, in the end, you're the one who's responsible for how far you'll get. But there are also other factors, like people, environment, and material things that you can use to your advantage and make a lasting impression.

As children what would you do to make a lasting impression on your generation? Would you be the one to go the extra mile? Will you be the next Steve Jobs /Mark Zuckerberg /Amelia Earhart / Coco Chanel?
Be the creator of your own dreams.
