MESSAGE FROM OUR FOUNDER

Dr. Mohan Lal Grero

You and I have an opportunity to inspire those around us. Each person that enters our lives, a stranger or a family member is going to see something within us. To make this world a better place, let us focus our minds on having a positive and loving influence. That influence will have a butterfly affect unlike any other because it comes from you.

This universe that we live in allows us to create wonderful things all around us. Let us begin with a smile. When you smile with someone, something happens and in most cases, you will receive a smile back.

What if you saw someone struggling and you were to help that person? If each one of us could take just a few minutes everyday to help someone in need, wouldn't this world be a better place?

By being yourself and teaching people through your everyday actions, you become an inspiring individual. Take that power that you have within and share it with the world in the most loving way that you know how.

GENERAL STUDIES

In which year was the Sri Lankan National Anthem composed ?

Answer: 1940

PHONICS - LEARNING LETTER SOUNDS

What is phonics?

Words are made up of letters and each letter stands for a different sound. When you know the letter sounds you can build up the words. This is called phonics.

Why is phonics important ?

Phonics gives young readers important clues when they are working out what a word is. To use phonics, young readers need to learn the following.

- To listen for sounds in words.
- To recognise which letter shape makes which sound.
- To blend letter sounds together to read words.

How can I help my child learn about phonics ?

Books like the Sound Stories in the Daisy Lane Home - School Readers series use rhyme and word play to focus on the sounds of words and letters: they introduce phonics in a 'fun' way.

- Rhyme helps to focus on words that end with the same sound, but have a different sound at the start of the word.
- Sentences or jingles made up of words beginning with the same letter help to focus on the sound of particular letters.

Brainwave

Go on a letter hunt - at home or when you are out. Look at signs, instructions, packaging; car number plates are great for capitals!

Remember

Teach your child the letter sounds before the letter names. Teach lower-case letters before capitals. Introduce letter names and capitals later, as your child gains confidence.

TUITION

We kindly request you not to send your child for tuition. If you send your child daily to school and he/she listens to the teacher and does the assignments given there is no need to send for tuition.

If your child is in grades 9 to 12, and you feel that he/she needs extra help, then you can send your child for the crash course conducted by the school.

“ Time is very slow for those who wait very fast for those who are scared ”

William Shakespeare

MOBILE PHONES

Please note that Mobile Phones should not be sent with your child to school. If found, it will be confiscated and will NOT BE RETURNED. In addition two days suspension will be given. Dear Parents, please note that this decision is taken in the best interest of your child.

SURAKSHA PHONE

If you wish your child to use a Suraksha phone, kindly send a request letter along with the unit to the Warden.

Please note that ONLY Suraksha phones will be allowed with the request letter. The letter should be sent separately and not a note in the SRB.
