MESSAGE FROM OUR FOUNDER

Mr Mohan Lal Greero

Pichai grew up in Chennai, India. His father was as an electrical engineer and his mother, a stenographer before he and his younger brother were born. The family wasn't wealthy, and the boys slept together in the living room of their two-roomed Apartment.

Early on, Pichai had a talent for remembering numbers, which his family realised, since he could recall every phone number he had ever dialed on their rotary phone. Not surprisingly, he developed an interest in Information technology. After becoming interested in computers — the first software program he wrote was a chess game. Pichai studied metallurgical engineering at the Indian Institute of Technology, Kharagpur. His success there won him a scholarship to Stanford. And today Sundar Pichai is the CEO of Google. In his home country, Pichai is seen as something of a hero. Throughout his spectacular rise, he remained incredibly humble. When questioned about his success he replied, "It is always good to work with people who make you feel insecure about yourself".

Dear children, what can we learn from this statement? We must learn to have a healthy attitude. The best way to do this is to find something that is unique for you – something that sparks the interest within. As author and civil rights leader Howard Thurman famously said, "Don't ask what the world needs. Ask, what makes you come alive, and go do it". Because what the world needs is people who have come alive.

HOBBIES ARE GREAT FOR CHILDREN

Hobbies benefit children in many ways. It gives a child an opportunity to express and discover themselves and build self-esteem. For example, a child interested in rock collecting, learns about Geology and Science.

There are many hobbies that children can follow such as reading, writing (creative, poetry, etc.), singing, dancing, learning to play a musical instrument (e.g. piano, guitar, violin, flute, etc.), painting (e.g. nature, objects, free-style, etc.), starting a collection (e.g. stamps, coins, sea shells, rocks, stones, feathers, model cars, trains, planes, etc.), riding and racing to name a few.

Other hobbies can also bring children close to nature such as watching wildlife (e.g. birds, butterflies, whales, etc.), nature photography (e.g. landscape, wildlife, macro nature, underwater, etc.), gardening, travelling, snorkeling, diving, canoeing, white water rafting, etc.

Therefore see what your child's interest is and help them choose a hobby that they would love and learn from.
