

MESSAGE FROM OUR FOUNDER

Mr Mohan Lal Gero

The unbeatable power of perseverance

Think of a world famous person who is very successful; someone from any field. The chances are that this person failed once, then twice and plenty more times before he actually hit the pot of gold, or in other words became world renowned. For instance, what if the founder of Sony Corp, Akion Morita, gave up when his first product, a rice cooker, turned out to be unsuccessful? It didn't cook rice so much as it burned it! What if Bill Gates gave up after his failed attempts? What if Walt Disney had actually believed the editor who fired him from a newspaper company saying that he lacked imagination? And what if Albert Einstein believed his parents and teachers who thought he was mentally retarded, slow and anti social. The world would have lost so many great discoveries and inventions if these people had not persevered. Has anyone ever told you "You must be either crazy or a genius"? That phrase may very well describe what a person who perseveres looks like. The person who perseveres usually goes against the current of what people think is possible or popular, they have odds stacked up against them, but they will push through and make their own waves in the sea of discovery. Perseverance means keeping at it even when you've tried and tried and done all that you think you can. Perseverance is when you've reached your limit and you still keep going. Winston Churchill is a golden example of perseverance; he not only experienced failures during his school career, having failed sixth grade, but also lost several elections in his political career. It was only at the ripe old age of 62 that he was finally elected Prime Minister of Britain. Who inspires you? Who is your hero that failed many times but never gave up? Think about that person next time you feel like giving up and draw encouragement. Remember, the most important thing is to keep on trying.
