MESSAGE FROM OUR FOUNDER

Mr Mohan Lal Grero

Do you find yourself being worried about what other people think about you? Or overly concerned about what others say about you? While it is natural for each of us to seek the approval of others, those who are self-confident and have a high self-esteem are able to discount the negative opinions of others and to remain assured of their own self worth.

To become less concerned with what people might be thinking, and less upset by the negative things others may say...

Never try to guess what others might be thinking. Value yourself.

Live your own life.

Make your own choices.

Value your own opinions.

Choose to associate positive people who support you.

You cause yourself much unnecessary suffering when you waste your time and energy imagining that others may intend you harm. Train yourself to avoid making any assumptions about what others may be thinking and...

Believe in the goodness of life.

Believe in the power of time to heal and to renew.

Believe in the power of forgiveness and gratitude.

Believe in the gift of rainbows and butterflies.

Believe in the laughter of children.

- Jonathan Lockwood Huie
