MESSAGE FROM OUR FOUNDER

Mr Mohan Lal Grero

What lies in the heart of a student athlete? The first key to success is desire. As a parent we want great things for our children but unless that desire comes from within them, they cannot succeed.

This passion is developed in difficulty. Sacrifice, injury, losing. Each are crisis points where an athlete decides if they're all in or if they're going to quit.

Goal setting is a discipline that successful people in every walk of life practice. Sports are great places to develop the habit of goal setting.

Courage to try new things and to be decisive will always be keys to success. Fear of failure keeps many talented people from pursuing their dreams. How can a person know where their passions lie without the courage or opportunity to try new things? Dedication is hard work, constant learning, and refusing to quit. Each of these virtues is a function of desire.

Honesty and forgiveness may be the most difficult key to success of all. The ability to be honest in self evaluation is a rare but necessary skill.

Desire, teamwork, dedication and courage are all compromised when a competitor won't forgive. Teamwork is a virtue that the world is hungry for. In great teams, the team covers for each individual's weaknesses while it values and makes full use of each individual's strengths. Teamwork is obviously important in sports and participation in sports may be the best way to learn to be a good teammate. *"Unity is strength... when there is teamwork and collaboration, wonderful things can be achieved."* - **Mattie Stepanek**
